## More payments, more power... less clutter

Clover Mini is small and easy to move around, so you can free up valuable counter space when you need it. It has a high-resolution touch screen and an intuitive interface that's simple for you and your customers to use.

Clover Mini runs on cloud-based software so you can access your business information wherever you are – from a computer, tablet or mobile phone\*.

You can customise your system with apps from the Clover App Market, where there are tools to help every kind of business be more successful.

Right out of the box, you'll be able to:

- Give your customers the flexibility of paying with debit or credit cards, contactless or with their mobile phone
- Protect your customers with built-in multi-layered security
- Improve your customer relationships with your customer with electronic receipts and online communications
- Get insights into your business with detailed reports on sales, employees and customer behaviour

## Clover Mini makes the running of your business simpler and more fun
